

## HINTS AND TIPS – TUNING GUIDE

### No.2 Mast Rake

Mast rake will vary depending on the conditions of the day and personal preference. The guide below is intended as a starting point.

1. Take a length of rope and tie it to the halyard (where you attached to head of sail).
2. Make sure to have your rig tension on Pull the rope tight at bow.

3. While holding that same point on the rope, move to the back of the boat and pull tight to see where it intersects the hull.
